Grade Level: 1 - 3

Customer Reviews

I'm a 4th grade teacher and use this book as a project in my social studies class - after a year of studying NC history, we read this book and each child gets a letter and makes their own page for our own version of this book. It's fun and a great way to wrap up our year-long study. The book has great illustrations and good explanations of what each letter stands for.

This book has so many great facts and figures. As a promoter of NC Tourism this book had all the little secrets I knew about and some I didn't. A simple read. Great illustrations. A book for all ages!

The Discover America alphabet series are great books for all readers! Elementary age can read them and they are full of great state facts and history. I love reading through them each time I get

my hands on a new one.

Another title in the Alphabet Series. This is about North Carolina. Lovely illustrations and well written. The 3- and 5-year olds who received the book loved having their grandmother read it to them.

Great book for kids and their adults. We got this to share with our grandkids, 7 and 10. They love it. Grandparents live in and Mom is from NC; Mom, Dad, and grandkids live out of state now, so the information was new and good to share.

T is for Tar Heel: A North Carolina Alphabet Our children were born in North Carolina, but we moved them to Nashville 12 years ago. i found this book series --one for each state--that highlights what is unique and also historical about each state. I have one for all the places the kids have lived. As they are grown now--I'm giving them these books to keep for their children to read about the states where they grew up. They are well illustrated and share fun facts about the State in an easy to read/understand format.

I used this book when I worked as a media specialist. The K-3 children sat still for it and loved the pictures. It's instructive and fun. I'm ordering another copy for the public library in which I work now.

I like that it has a general overview of North Carolina's points of interest. I also like that it is a board book. My toddler can learn about his state and be interactive with turning the pages himself.
