Prep Course For The Young Beginner: Lesson Book Level C

Synopsis

Alfred's Basic Prep Course, Levels A through F, was written to answer a demand for a course of piano study designed specifically for students who are five years old and up. This course offers a careful introduction of fundamentals, music that fits comfortably under the young student's normal hand span, plus constant reinforcement, all leading to results beyond those generated by other piano methods. After Lesson Book B, the student may progress to Prep Course, Lesson Book C or choose to go directly into the faster paced Level 1B of Alfred's Basic Piano Library. The complete Prep Course consists of six books (Levels A through F).

Customer Reviews

As a piano teacher, this is one of my favorite lesson books to work with beginners. After a student completes a primer level book, I normally use this book before heading into a level 1 book. The first chapter, all songs are written in C Major. The next session all of the songs are in middle c position, and the last part of the book is in low G major. I tend to begin in the middle of the book and play all of the songs written in middle c position, then moving to the beginning of the book (c major songs). Each song as a teacher duet, and most of the songs are familiar tunes - which is always helpful when teaching a beginner.

Can't go wrong with Alfred books. I'm a piano teacher for young students and these books are perfect. I love the combo of a lesson and theory book. These books are wonderful for students under the age of 8. I like the Level 1A and 1B books for older children.

This is a good series for beginning piano students. The theory books are good also as they reinforce what is taught in the lesson books.

My son is 7 and has been in piano about a year and a half, so we have been through several of these Prep Course books. They are all very good and provide a step by step learning for the student. we also use the theory book that goes along with this and love it too.

Great beginning and introduction to piano for young children. Our ages are 7 and 8 and they really enjoy this series. Colorful and fun while learning.

The book is a great follow up to Prep Course B. The book is being used by a child but could be used by any beginners who want to learn piano.

The kids' music teacher recommended the book and it seems to do the trick. Good enough for the teacher, good enough for me.

I got this for my step-daughter. I have taught piano and love using Alfred's courses. Good for beginners to learn.
