ISBN-13: 978-0789717566

Product Dimensions: 1.2 x 7.8 x 9.5 inches

Shipping Weight: 2 pounds

Average Customer Review: 2.3 out of 5 starsÂ  See all reviewsÂ  (9 customer reviews)

Best Sellers Rank: #4,751,357 in Books (See Top 100 in Books) #21 inÂ  Books > Computers & Technology > Networking & Cloud Computing > Data in the Enterprise > SAP R3 #956 inÂ  Books > Computers & Technology > Hardware & DIY > Personal Computers > Macs #11309 inÂ  Books > Computers & Technology > Databases & Big Data

## **Customer Reviews**

If you're looking for specific directions, keep looking -- this isn't it. It provides a decent description of all areas in the HR module but doesn't go much further. If you're new to the SAP R/3 HR arena, this will give you a good idea of the capabilities/functionalities of this module. If you're a veteran, you probably won't get a whole lot from it.

This book is nothing more than a copy (literally) of SAP's help with a few add-ons. If you have access to SAP online help, you would be wasting your money on this book.

This is a competently written book, full of information about SAP HR. However, it attempts to lay out concepts of system organization and the interrelationships among modules and various kinds of data without a single illustration -- chart, diagram, schematic, whatever -- to help the reader visualize and understand. Appalling for a book of this kind.

This is a terrible book. You can not make any sense out of this junk.

If you're looking to simply look up some general info about the various modules, it's fine. If you're looking for "how-to" info related to various config possibilites, forget about it!! This book doesn't reach anywhere near that!!!! But.... that's exactly what we want isn't it?? Even discounted, it's not worth the \$\$, but if you are a complete novice to SAP HR and only want generalities it's terrific!! It's your money!!!
