Customer Reviews

My son love this book, he got it when he was only 2 1/2 years old. A year later, he still loves it! At the beginning, you need to supervise your child when reading this book because of the pop ups! They are sturdy though.

Wow! This is not just a book with a few flaps or raised 2D images. The machines come right out of the pictures at you! The big rig stands out about 10cm from the book. The dump truck has movable parts and the wheels turn on the tractor. The explanations nwxt to the pictures are simple but informatuue. My 2 year old son loves this book. I shall be trying out others in the series. Great for kids who like big machines.

very happy with this book
