Geography & Cultures > Where We Live > Farm Life

Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

My 4-year-old loves Legos and Lego City books. He always picks them out from his Scholastic Book Club catalogs and just can not wait to read them. A couple of the other Lego City books had me on here writing 1 and 2 star reviews, but this one is fine by me, so it only seemed fair to leave a quick review. :) The book goes through some farm activities and some machines used on the farm. Really a hit.

The younger readers love to read this over and over in our Library. Great beginner reader. WHAT TO READ NEXT? GRANDMA'S PUPPIES: THE FUN PUPPY.

My 3yr old loves this book and another Lego city book. The reading level I think is about 1st or

2nd?.....but the pictures are so colorful that my son is entertained and can tell the story by himself. I would recommend it to others.

My son likes all the Lego books so this is more my rating than his. I just found the farm book to be rather dull. The story just describes the various farm machines and shows Lego people using them. In contrast, the fire and crook books have a bit more action. And the city building one also describes the machinery but with more activity and a story (i.e. they do X while they wait for the concrete to dry.

Legos have proved to be a great incentive to get my son to read. As a Lego fan he thoroughly enjoys this book, and all the other Lego reading books. This book would be great for a preschooler up to a 2nd grader depending on their reading level; preschoolers loving to be read to and older children loving to read it on their own. When finished with this book we donated it to our school library and it had two holds on it within the first day.

Great book to read to small children. This is one of the books I read to my 5yo son for bedtime. He enjoys the pictures and the sentences are short which helps with his learning to read.

This is a cute little story about a LEGO farm and my kids love it. If you want to encourage your kids to read and have fun then this book is for your family.

My son LEGO loving son loves these books and I have to read them again and again, This one is more interesting to me than the others in the series
