Customer Reviews

This book was a waste of money. All it told you was how to use the internet, which I already do. Also I tried some of the web sites they said to use - most were no longer in use. This book is way out of date! Very disappointed.

Another book that not only wasted my time but also my money.Nothing but how to use a website on a computer and I already knew how to research.

This is so usefull, i love this book
